### EDUCATION:

---

SRI Harshini Degree college	2020-2023 6.6 CGPA
Prakasam Engineering College (Autonomous) MCA(master of computer application)	2023-2025

### PROJECT:

Complaint and Severity Identification From Online Financial Content:

- ARTIFICIAL INTELLIGENCE (AI) is transforming how people and organizations access and manage their finances.
- In Pandemic time using AI and ML the number of persons are collapse their financial property like dealing with loans, credit cards, and other consumer financial products and services.
- The objective of complaining could be to voice dissatisfaction, seek explanations, or both.
- The number of users in this module is n. The user is required to register before initiating any activities.
- When a person signs up, their details are automatically recorded in the database.

### CONCLUSION:

- In this work, we have introduced FINCORP, an annotated dataset of complaints originating between financial institutions and consumers on Twitter.
- We have addressed the task of complaint identification and severity level prediction (primary tasks) jointly using a multi-task framework assisted by emotion and sentiment detection as auxiliary tasks

### TECHNICAL SKILLS:

- 
- **Technologies:** HTML, CSS,
  - **Languages:** C
  - **Common skills:** PowerPoint, Windows, Ms Office
  - **Tools:** Git, GitHub, Vs code

### SOFT SKILLS:

- 
- Communication skills
  - Analytical thinking
  - team collaboration

### CERTIFICATION:

- 
- web Developing by using Oracle.
  - Electrical Assembly Operator Control Panel ( ELE/Q7306 )
